A new urban space

The building is a classic Northwest property and is designed for offices. The other tenants are WWF, Copenhagen Municipality and NCC Group.

The northwestern part of Copenhagen, where this building is located, is under rapid development these years. From being a poor working class neighborhood, new buildings and businesses are now popping up and both students and newlywed families are increasingly choosing the neighborhood as their new home. Northwest is a multicultural melting pot, with a dynamic and vibrant atmosphere.

Lovely bright office located in a distinctive property on the corner of Svanevej and Ørnevej. There is access to the lease via a nice and high-ceilinged entrance hall, main staircase and elevator. The lease is furnished with a few smaller offices and meeting rooms as well as a large open office environment.

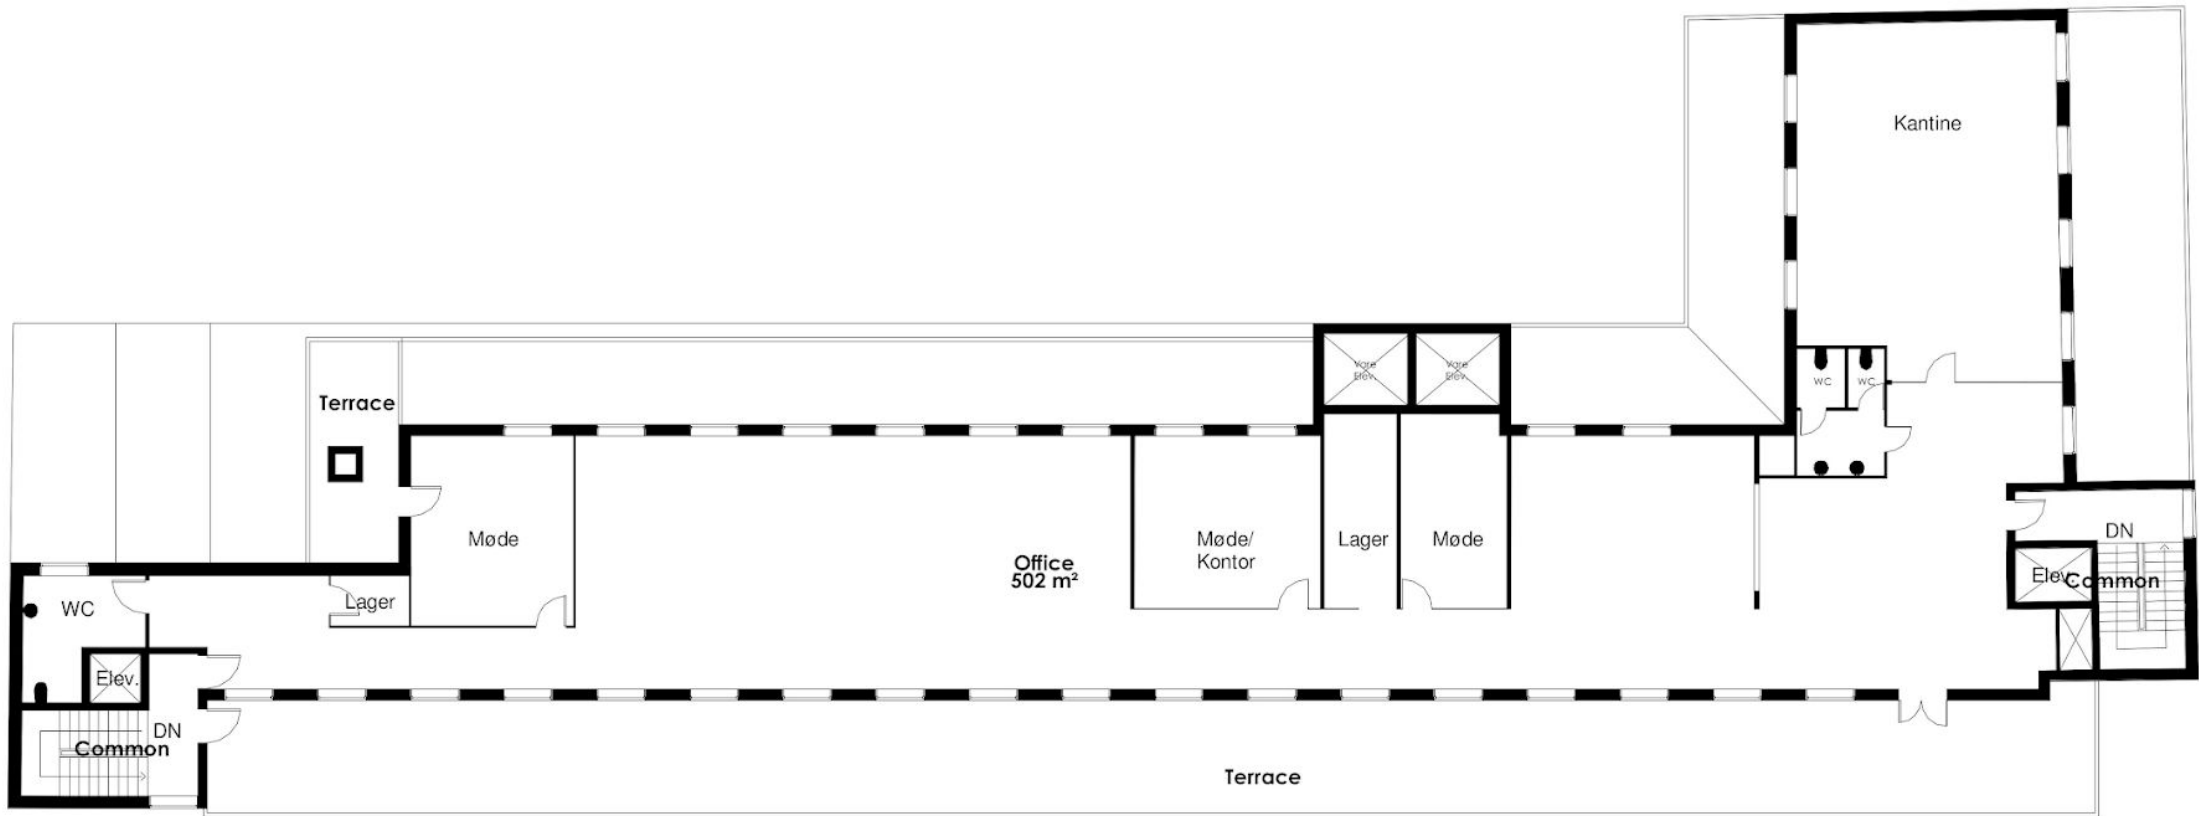

The lease is currently used by the property owner, who plans to move to another of the company's properties, so takeover can be done flexibly.

The property has its own parking basement, where you can rent spaces for DKK 1,500 per. month. From the parking basement there is direct access up to the office buildings.
